

WHAT WE NEED TO KNOW TO PROVIDE A QUOTE

#1. CHOOSE PRODUCT

- a. Three-sided tray or four-sided tray
- b. Vial placement Insert
- c. Bin
- d. Other

#2. CHOOSE TYPE OF GATE IF APPLICABLE

- a. Pivoting
- b. guillotine

#3. CHOOSE TYPE OF STAINLESS STEEL

Type of stainless steel required:

- a. General purpose, autoclave use: Type #304
- b. High heat applications, depyrogenation: Type #316L

#4. CHOOSE THICKNESS OF STAINLESS STEEL

Ultra heavy	11 gauge	.120"	5 lbs./sq./ft.
Heavy duty	14 gauge	.075"	3.150 lbs./sq./ft.
Medium Heavy duty	16 gauge	.060"	2.499 lbs./sq./ft.
Medium duty	18 gauge	.048"	2.016 lbs./sq./ft.
Light duty	20 gauge	.036"	1.149 lbs./sq./ft.

#5. CHOOSE CORNER PREFERENCE

- a. Tab (folded) corners with spot welds. Non-water tight.
- b. TIG (fusion welded) corners. Water-tight.
- c. No-weld corners

#6. CHOOSE PERFORATIONS

- a. no perforations
- b. .120", .25", .5" diameter holes bottom and sides as required
- c. Specify custom large hole size and pattern

#7. SPECIFY

- a. Dimensions: List all component dimensions separately (tray, lid, etc.)
- b. Quantity
- c. Electro-polishing
- d. Laser dating or other Laser engraved information
- e. Required delivery

PLEASE INCLUDE ROUGH PERSPECTIVE SKETCH OF ALL COMPONENTS AND EMAIL TO SALES@HURSTCORP.COM

NOTE: Hurst Corporation provides formal CNC engineering drawings after order but prior to production to eliminate errors. There is no extra charge for this service.
