

SYRINGE RACKS FOR LYOPHILIZATION

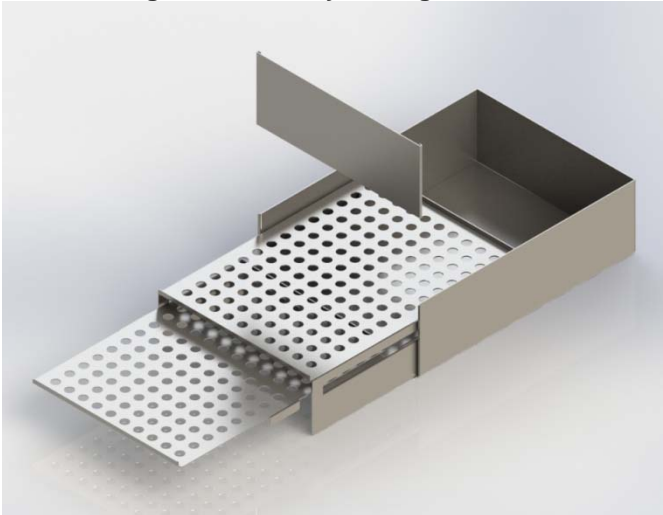

HURST Patent Pending Syringe Racks for Lyophilization feature 316L stainless gated trays and a two-part Rack designed to hold syringes on a vertical axis. The unique Rack quickly disassembles to two separate easy to clean monolithic sections.

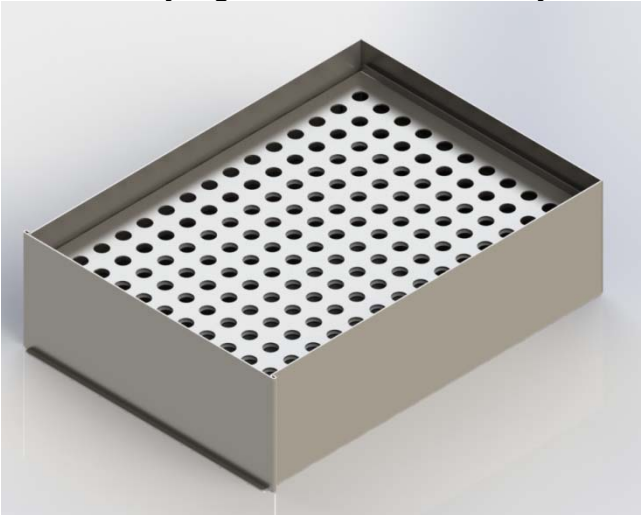

All sizes of gated 316L trays and gates are available

Twin level Syringe Rack with custom array holes

Quick dis-assembly of all parts for cleaning

Bi-level Syringe Rack and tray less 316L Lid

HURST also manufactures a full line of Tray Carts. See www.hurstcorp.com
